at the above mentioned Silk Exhibition and it attracted the attention of many of the visitors to the Exhibition, including the King & Queen and others of the Royal family

From enquiries I have made respecting your silk I am inclined to think that there should be a possibility of an increasing demand for it in European markets Personally I am more struck with its appearance in the Raw than in the thro and am therefore inclined to think that if it were sent to Italy or France in the Raw state & thrown by one of the best Frenc or Italian throwsters that it would prove to be quite a good class & serviceable silk
